

*American Association of Petroleum Geologists
42nd Annual Eastern Section Meeting
September 27-30, 2014 • London, Ontario, Canada*

www.esaapg2014.org

The 42nd Annual Meeting of the Eastern Section of the American Association of Petroleum Geologists is being hosted by the Ontario Petroleum Institute in London, Ontario, Canada.

Oil and natural gas exploration and development in the four major basins of the Eastern Section have witnessed transformative changes and challenges. After 156 years of commercial petroleum production the treasure abounds in the reservoirs beneath the original North American oil patch.

Join us in London, “The Forest City”, to trace the roots of this bountiful endowment, and learn how going **Back to the Source** has nurtured the second great cycle of economic prosperity.

The 2014 Eastern Section AAPG Meeting will feature:

Technical Program

Exhibits

Short Courses

Field Trips
