Contact: ontariogeoscientist@gmail.com

Small environmental consulting firm seeking qualified candidate for dynamic and fast-paced work position. You will be responsible for all work product from field work to synopsis reporting in a horizontally structured organization with minimal oversight or management supervision.

Send resume and cover letter in confidence to:
OntarioGeoscientist@gmail.com

- ▶ Successful applicant will work from home;
- ▶ Substantial field work is required, as is out of town travel;
- ▶ Must possess a valid driver's licence and have a vehicle for travel.

The following skills and qualifications are attributes:

Technical

- ▶ P.Ge or P.Eng in the Province of Ontario or candidate for same (student, GIT, EIT);
- ▶ Experience with environmental subsurface contaminant investigation and remediation;
- ▶ The ability to work in a dynamic, fast-paced environment, and make decisions based on limited information;
- ▶ The ability to lead large crews on-site;
- ▶ Ontario-based environmental consulting experience.

Communication

- ▶ Possess excellent fluency in both printed and spoken English;
- ▶ Has a working understanding of Ontario geography and geology;
- ▶ Understands the challenges of remote work sites and have experience dealing with same;
- ▶ Ability to communicate clearly to site workers regarding both directions and requirements for, and to, different locations throughout the Province.

Communication experience with both the TSSA and the MoECP is an asset.
