

Premier Environmental Services Inc. (Premier) is seeking an energetic individual to join our growing and dynamic team as a Junior Environmental Scientist.

The role includes but is not limited to the following duties:

- Undertaking compliance monitoring programs which would include soil, groundwater, surface water, leachate, and air quality monitoring.
- Suspect building material surveys and sampling.
- Undertaking Environmental Site Assessments and Remediation under the supervision of senior staff.
- Drilling supervision including monitoring well installation, as well as the detailed environmental and geotechnical logging of soil and bedrock cores.
- Practical work experience completing soil and bedrock drilling and stratigraphy logging, groundwater monitoring well installation, groundwater and soil sampling and soil vapour sampling at residential, large industrial/commercial facilities, or construction sites.
- Data collection, processing, and analysis of results.
- Consulting with, as well as answering technical questions from colleagues and project managers.
- Writing technical reports that present methodology, results, and recommendations.
- Travel is required.

We are accepting applications from candidates with the following qualifications:

- Post-secondary education in environmental technology, engineering, or science (environmental, geology, or hydrogeology).
- 1 to 3 years' experience in a directly related field of work.
- Proven problem-solving ability, adaptability, and resourcefulness.
- Proficiency in environmental media sampling techniques is considered an asset.

Candidates should also possess:

- Excellent written and verbal communication skills.
- Aptitude for attention to detail to ensure a high degree of quality assurance and quality control.
- Strong people and team skills as well as being highly motivated.
- An ability to work in a fast-paced team environment with little to no supervision. Exceptional organizational capabilities, coordination and consultation skills.

- Willingness to travel and to work long hours, evenings and weekends, as required.
- Ability to multi-task and proven ability to successfully meet deadlines.
- A valid driver's licence.

Why Choose Premier Environmental Services Inc.?
