Senior Hydrogeologist/Engineer-Environmental Site Assessment & Remediation Specialist Guelph, Ontario

Are you looking for a change? Do you enjoy variety, learning, and working with a team of highly skilled experts?

RWDI is seeking an energetic individual to join our **Geoscience** team in **Guelph**, as a **Senior Hydrogeologist/Engineer**. Work will focus on projects in the Southwestern Ontario focusing on the GTA and Niagara Region area.

The role includes but is not limited to the following **duties**:

- Design and implementation of environmental site assessments and remediation systems.
- Development of conceptual site models.
- Analysis and interpretation of environmental data, preparation of technical reports, and detailed technical review.
- Consulting with, as well as answering technical questions from colleagues, clients, and regulatory agencies.
- On-going development of client relationships, as well as expanding site assessment and remediation service offerings.
- Mentoring junior and intermediate staff.
- Travel is required.

We are accepting applications from candidates with the following **qualifications**:

- 10 + years consulting experience focusing primarily on Environmental Site Assessments, Remedial Action Plans, Records of Site Condition, etc.
- Post-secondary education in engineering or hydrogeology with a proven specialty in contaminant hydrogeology, environmental site assessments and remediation.
- Licensed under the Professional Engineers – Ontario (P.Eng.) or Association of Professional Geoscientists of Ontario, (P.Geo.).
- A Qualified Person for Environmental Site Assessment and/or Remediation per O. Reg. 153/04 requirements.
- Experience implementing soil vapour intrusion studies, as well as mitigation systems is considered an asset.

Candidates should also **possess**:

- Excellent written and verbal communication skills
- Strong people and team skills as well as being highly motivated
- Proven problem-solving ability and resourcefulness
- An ability to work in a fast-paced team environment with little to no supervision
- Exceptional organizational capabilities, coordination and consultation skills
- Ability to work on a number of projects at once and proven ability to successfully meet deadlines
- Aptitude for attention to detail to ensure a high degree of quality assurance and quality control
- A valid driver's licence

Please submit your cover letter and resume at the following link:
